Profile Summary

Multilingual Software Engineer & AI Specialist fluent in **English and Kiswahili**, with strong expertise in **Natural Language Processing (NLP)**, machine learning, and scalable software systems. Experienced in bridging language and technology through AI-driven solutions, bilingual communication, and cross-cultural collaboration. Passionate about advancing ethical AI and linguistic projects that empower diverse communities.

Core Skills

- **Languages:** Fluent in Kiswahili & English
 - **Linguistic Expertise:** Translation, annotation, cross-cultural communication, NLP model training
 - **AI & ML:** Artificial Intelligence, Neural Networks, Predictive Analytics, NLP pipelines
 - **Software Engineering:** Backend/Frontend architecture, API integration, cloud deployment
 - **Collaboration:** Remote teamwork, project management, tutoring & mentorship
-

Professional Experience

Airbnb – Artificial Intelligence Engineer

Nairobi County, Kenya | March 2025 – Present

- Developed and fine-tuned **NLP models using Kiswahili datasets** for predictive analytics.
- Designed scalable training pipelines and implemented evaluation metrics for linguistic accuracy.
- Collaborated with cross-functional teams to integrate multilingual AI solutions into production.
- Contributed to **ethical AI practices** by improving transparency and reproducibility.

Safaricom PLC – Software Engineer

Nairobi, Kenya | June 2025 – Present

- Engineered and maintained scalable enterprise systems with multilingual support.
- Delivered secure, user-focused applications optimized for diverse language contexts.
- Applied modern development practices to improve workflows and performance.

Laikipia University – Project Manager

Nyahururu, Kenya | May 2025 – Present

- Coordinated events, workshops, and student activities in both English and Kiswahili.
- Provided technical and linguistic support for academic research and IT systems.
- Tutored and mentored students, guiding bilingual coursework and communication.

Freelance Web Developer – Private Client Projects

Nairobi County, Kenya | Feb 2023 – Present

- Designed bilingual websites integrating **Kiswahili and English content**.
- Built responsive interfaces using ReactJS, HTML, CSS, and JavaScript.
- Delivered polished UI/UX with reusable components and scalable styling.

Education

Laikipia University – BSc. Computer Science (Sept 2023 – Apr 2027)

Focus: Software Engineering, Machine Learning, Cloud Deployment, NLP

St. John School, Kanunga – KCSE (Jan 2019 – Dec 2022)

Strong STEM foundation with emphasis on computing and languages

Strengths for Swahili Linguistic Projects

- Proven ability to **work remotely** and collaborate across diverse teams.
 - Strong foundation in **linguistic AI** and bilingual communication.
 - Experience in **data annotation, translation, and NLP model training**.
 - Passion for advancing **Swahili language technology** in global AI systems.
-
